

## **Instructions for Creating a PPT (Minimum 20 Slides)**

### **Slide 1 – Student Details**

Include: Enrollment Number, Branch, Semester, Subject Name, and Subject Code.

### **Slide 2 – Topic Title**

Clearly display the main title of your presentation.

### **Slide 3 – Purpose of Learning**

Explain why this topic is important and what we gain by learning it.

### **Slide 4 – Introduction**

Provide a brief and clear introduction to the topic.

### **Slide 5 – Main Content Overview**

Present the core concepts or subtopics you will cover.

### **Slide 6 – Real-Life Example**

Include a practical, real-world example related to the topic.

### **Slide 7 – Solved Example**

Show a properly worked-out numerical or conceptual example.

### **Slide 8 – Interpretation of Results**

Explain what the answer means and how it relates to the concept.

### **Slide 9 – Unique Content**

**Add some original or creative material to help you score full marks.**

### **Slides 10 to 20 – Additional Content**

Add more slides as needed to reach a minimum of 20 slides.

Include:

Further explanations, Extra solved problems, Graphs, charts, or illustrations, Summary, Conclusion, References
